MMR_0584 Grant Knowles Canada, Ontario The St. Lawrence Division

Grant Knowles is an accomplished model railroader known for his work in the narrow gauge realm. His layout, which focuses on the Colorado and Southern railroad, features Hon3 scale modeling. One notable feature he's working on is an extensive bridge inspired by the Georgetown Loop High Bridge prototype.

Grant Knowles is a Master Model Railroader (MMR) who has achieved the highest level of recognition in the model railroading community. The Master Model Railroader (MMR) title is awarded by the National Model Railroad Association (NMRA) to individuals who demonstrate exceptional skill, knowledge, and dedication to the hobby.

It's impressive to see enthusiasts like him contribute to the artistry and craftsmanship of model railroads!

PLEASE SEE THE FOLLOW PAGE FOR HIS AMAZING WORK!

1 – LATTICE GIRDER BRIDGE UNDER CONSTRUCTION AS PART OF GRANT'S KITBUSTER PROJECT.

2 – HON3 DRG 346 AT WATER TOWER ON GRANT'S LAYOUT.

3 – NICE WATER EFFECT UNDER A BRIDGE ON GRANT'S RAILROAD.
